The Last Day of Gen. Ashby. It was a busy one. Scarcely had be ord red a bargage train to proceed before the enemy pened fire upon his camp. With but two ompanies of his old cavalry ne prepared to meet them; seeing this they immediately withdrew. The command was then moved slowly through Harrisonburg, and drawn up three hundred yards from the opposite end Soon a regiment of " blue coats" came charging through town, around the bend, in full sight of Asl,by's men, who stood upon their rained chargers as if fixed to the ground When within a very short distance, they commenced to slacken their speed, only giving us ime to tender the salue due them. The road was very bad, the train moved slowly, and the main body of the enemy's cavalry was only a mile from its rear. They gave us no time to prepare to meet them.

Ashby had not begun-to form his men, beore three regiments, with colors flying and music rare, emerged from a woods threefourths of a mile distant. Bearing to our right, they charged, presenting a beautiful sight. Ashby cou'd contain himself no longer. Gently drawing his sabre, and waving it around his head, his clear, sounding voice rang out his only command-" Follow me. The dash was simultaneous. Fences were cleared, which at any other time would have been thought impossible. The enemy came to a halt. It was but for a moment. As they their heads they broke and ran. The work of shaughter had commenced. At every step Ashiby, followed closely to ruis men, but them down, or sent them to the rear. But oh! how grand they sink to rest Who close their eyes on Victory's breast!" As much as we admire the sentiment here emodied, we can but wish that our brave men, who stand forth to vindicate Southern Rights in this glark hour, may live victorious, return victorious, and go down into the vale of years in full fruition of the benefits of the glorious new Government which their valor shall have baptized and ennobled. To have worked out our redemption under the terrible disadvantages of our surroundings, will be such a chapter as never tefore was traced by the swords of freemen; and we want every soldier to survive and look back upon its marvellous brilliancy, and bask in its beams, and realize tiod's grandeur and goodness in the more perfect development of the new heavens and the new skies of our new Confederacy,-when the univer-

It is this hope, this confidence, this faith, that continues to cheer the most despondent amongst us, and we can neither tolerate nor realize any such faintness of heart as would even look to the possibility of our subjugation. If such be the feeling at home, what must it be amongst those of you who stand in the serried ranks of our Confederate armies, ready for the strife, braced with the confidence of trained soldiers, and burning to drive back the invader from our injured and insulted land.

We trust you find the weather as agreeable in samps as we have had it in this latitude for a week or two past. Such a June the oldest inhabitant has seldom if ever witnessed before. The nights are almost as cool as October, the mornings dewhespangled, the skies mellowed into the softness of November, and all Nature cheerful ander the combined influences. We do not know that it is the most wholesome of weather, but it is certainly delightful. The only objection is, that sluggards will oversleep themselves. It is a hard matter to get people up by sun-rise,-and, to tell the truth, though an early-riser by long habit, we have found ourself for some days not only conhiving at this folding-of-the-arms-together-inhiving at this folding-of-the-arms-og Capt.
